

Please get Involved in the Peace, Freedom, Justice, Fairness Movement (PFJF)

The purpose of this website is to promote the goals and objectives of the Peace Freedom Justice Fairness (PFJF) movement — to help bring more peace, freedom, justice, and fairness to every human being on our planet

Please discuss the ideas and goals of this movement with your friends and family, encourage discussion and action to help us achieve our goals and objectives.

We believe humanity can move toward a future where war is outlawed, where the threat of nuclear war no longer hangs over civilization, and where preventable human suffering and death are reduced as much as possible. Millions of people still die unnecessarily from hunger, disease, violence, poverty, and political corruption. We believe humanity has the knowledge, resources, and ability to do far better.

The PFJF movement supports efforts to reduce and eventually eliminate corruption at every level of government in every nation. We believe governments should exist to serve people honestly, fairly, and transparently.

We support the idea of free and fair internationally supervised elections in every country, so that people can have confidence that their voices are accurately represented and their votes truly matter.

We also support the long-term creation of a Planetary Constitution that redefines national sovereignty so that no government or national leader believes they have the right to wage aggressive war, commit genocide, oppress their own population, or threaten humanity with mass destruction.

If you agree with any of these goals, you are welcome to say that you are a member or supporter of the PFJF movement.

There are no dues, fees, or membership requirements.

You do not need to belong to any political party, religion, philosophy, nationality, or organization. We welcome people from all backgrounds who share any of these goals and objectives. We are willing to cooperate with individuals and groups across political, religious, philosophical, and cultural differences whenever common ground exists in support of peace, freedom, justice, fairness, and the protection of human life.

The one principle we reject is the use of aggressive violence to achieve these goals.

We believe that the ends do not justify the means, and that lasting peace cannot be created through hatred, cruelty, or violence.
